

European Conference on Ambient Intelligence 2015 (AmI-2015)

11-13 November 2015 - Athens, Greece, <http://www.ami-conferences.org/2015>

Call for papers - Posters session

AmI 2015 continues a series of conferences targeting the area of Ambient Intelligence. The posters session aims to collect papers showing work in progress and thus raise opportunities to present and discuss current work in an informal setting. These papers will be presented as posters in the conference. We encourage submission of both theoretical and application oriented posters that span - but are not limited to - the following topics:

- AmI & Healthcare
- AmI & Well-being
- AmI & Social Robots
- AmI & Evaluation
- AmI & City
- AmI & Other Applications
- New & Emerging Topics

Poster submissions are aimed at showing work in progress (such as interesting early results or valuable student projects) that is more exploratory or with preliminary results. Submissions should include an extended abstract summarizing the work, which should be at maximum 4 pages using the Springer guidelines for Proceedings. Poster abstracts will be published in the online conference proceedings indexed by Scopus.

Important Dates

Submission due: 21 August 2015

Acceptance Notification: 25 August 2015

Conference Date: 11-13 November 2015

Authors wishing to submit a poster or demo to AmI 2015 should do so by email to ami2015posters@eap.gr. Accepted posters will be considered as candidate for the AmI Best Poster Award. Authors of accepted submissions will receive instructions on how to prepare and submit the poster presentation and scheduling at the conference.
